EVAN GOUDY

Computer Science Student | Software Engineering Intern Candidate

(682) 402-5039 • goudyev360@gmail.com • linkedin.com/in/evan-goudy-937490398 • github.com/EvanG64 • Fort Myers, FL

SUMMARY

Computer Science student (3.56 GPA) experienced in building full-stack AI web applications, relational databases, and enterprise data dashboards. Winner of the SymplisticAI challenge at EagleHacks 2026 and Teaching Assistant for CS coursework. Seeking a Summer 2027 Software Engineering Internship.

EDUCATION

Florida Gulf Coast University — Fort Myers, FL **Expected May 2028**

B.S. in Computer Science, Minor in Supply Chain Management | GPA: 3.56/4.0

Relevant Coursework: CEN 3078 Computer Security, CEN 4072 Software Testing (Selenium), CIS 4622 Cybersecurity, COP 3710 Intro to Data Engineering

TECHNICAL SKILLS

Languages	Java, C++, C, JavaScript, TypeScript, Python, SQL (T-SQL)
Web & Tools	React, Vite, Tailwind CSS, Docker, Nginx, Git/GitHub, VS Code, Selenium
Data & Systems	SQL Server (Relational DB Design), Power BI, Tableau, Advanced Excel, SAP, D365, Medius
Security & Testing	Software Supply Chain Security (Sigstore, OpenSSF Scorecard), 2026 National Cyber League

PROJECTS

NightRaid: AI Banking Statement Analyzer | EagleHacks 2026 SymplisticAI Challenge Winner

- Architected React 19, TypeScript, Vite, and Tailwind CSS frontend for a 72-hour hackathon app analyzing financial PDFs, Excel, CSV, and text across 5 parallel AI pipelines.
- Integrated Flask backend with a local LLM (Ollama) to stream real-time analysis while keeping statement data secure on the host; containerized deployment using Docker and Nginx.

Vehicle Management Database | FGCU Water School Technical Team Lead

- Led 4 developers to architect a SQL Server (T-SQL) database with 16 tables tracking vehicle fleets, maintenance logs, invoices, and role-based user access controls.
- Formulated database schema, automated spreadsheet migration workflows, and authored complete system documentation on GitHub.

EXPERIENCE

Supply Chain Intern — Propelis (Remote, Chicago, IL) Summer 2026

- Developed Excel and Power BI dashboards to enhance KPI visibility for Monthly Operating Reviews across spend, inventory, and freight datasets.
- Consolidated data across SAP, Dynamics 365, and Medius to troubleshoot invoice errors and improve reporting workflows.

Teaching Assistant, Computer Programming I — FGCU **Jan 2025 – Present**

- Review, debug, and grade student Java/C++ assignments while tutoring 30+ students on core object-oriented software engineering concepts.

Independent Developer — Game & Systems Development **2022 – Present**

- Engineered game modifications for global titles (Skyrim, GTA, Fallout) using Git version control and server optimization strategies.

CERTIFICATIONS & ACTIVITIES

- **The Linux Foundation / OpenSSF:** Securing Projects with OpenSSF Scorecard (LFEL1006) | Securing Your Software Supply Chain with Sigstore (LFS182) — 2026
- **Enterprise & Supply Chain:** Propelis Internship Certificate | SAP ERP Essential Training | International Logistics — 2026
- **Competitions:** 2026 National Cyber League Participant | EagleHacks 2026 SymplisticAI Challenge Winner
